EDUCATION

B.S. Computer Science
Stanford University

CORE SKILLS

- Apache Kafka
- Cassandra
- Kubernetes
- Rust & Golang
- eBPF Tracing
- gRPC Systems

CANDIDATE: Alex Rivera

ROLE: Principal Infrastructure Architect

PROFESSIONAL SUMMARY

Specialist in real-time stream processing architectures and distributed sto
Over 12 years designing fault-tolerant high-throughput platforms.

KEY ACHIEVEMENTS & PRODUCTION METRICS

1. Re-architected core ingestion pipeline,
   increasing throughput by 70 percent.
2. Mitigated database write amplification under load.
3. Scaled message bus to 25 million events per second.
